1. Claims 24 and 25 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The examiner deem claims 24 and 25 as novel when read as a whole for the limitations of initiating a boot operation and after initiation of and during performance of the boot operation, detecting a failure and initiating a targeted diagnostic operation on at least one hardware device in response to the detected failure and logging an error detected by the targeted diagnostic operation and discarding an error log generated during the boot operation prior to initiating the targeted diagnostic operation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
